Inventing tomorrow since 1947

SALOMON

Trends change, technologies do too, sports and outdoor activities evolve. Occasionally, whole industries are redefined by a seemingly small change that quickly becomes such pervasive that it seems impossible there was ever a time “before”.

Steel edges, self-releasing heelpieces, forward-flexing ski boots... all born from the passion, engineering, and innovation of a company fascinated by the outdoors. Our innovation has been driven by generations of athletes, ambassadors, developers, and behind-the-scenes experts working tirelessly to advance the practice of our favorite sports and offer an opportunity to people to be their best selves.

To some, 1947 and 2023 are just years, to Salomon they mark a 76-year-long dedication to innovation and excellence. In Annecy we have been dedicated to inventing tomorrow since 1947 and continue to be excited about shaping the future.

“What fascinates me the most, is what I will do tomorrow.” George Salomon said it, the Salomon Family continues to live by it.

TOMORROW IS YOURS

TRANSFORMING SKIING SINCE 1947

We strive to make every ski day better than the one before.

SUMMARY

From cruising on perfect groomers to powdery off-piste adventures, and everything in-between, we've got you covered.

ALPINE SKIS

S/RACE

MASTER A NEW LEVEL OF SPEED.

Engineered to satisfy even the most expert skiers, Salomon's S/RACE GS PRO won't let you down on even the iciest, most challenging slopes. Featuring the innovative Blade technology, it delivers incredible underfoot stability when gliding, yet maintains the liveliness needed to instantly react and keep your speed up from the first to the last turn.

FASTER TRANSITIONS

The edge-to-edge Ti construction and Salomon's Blade technology combine the stiffness you need to glide, with the liveliness you want to turn.

UNCOMPROMISED TURNING SPEED

Salomon's Blade technology fuses flexible polymer pads into the Ti layer, helping you bend the ski with less effort, and letting you to turn without shaving off speed.

POWER

This 65 mm underfoot GS ski features a Race Woodcore, race base, 2 sheets of Ti, and a full sandwich sidewalls construction that give a power boost to your racing performance.

ADDIKT

(GET) ADDICTED TO (MAKING) THE RIGHT TURNS IN LIFE.

Designed for skiers addicted to spending every chance they get carving down the mountain, Salomon's newest on-piste Addikt Pro set will instantly get you hooked. Featuring the innovative Motion Tail technology and a narrow waist make it a responsive yet forgiving ski that keeps it fun to mix short and long turns as you ski all day.

SUSTAINABLE MATERIALS

Recycled ABS sidewalls

RESPONSIVE AT SPEED

The ski's Woodcore and double TI construction is enhanced by Salomon's Blade technology to take your speed to the limit of your comfort zone whenever you choose to.

PLAYFULL

The 66 Slalom sidecut makes the ski super agile and playful, so you can mix short and long turns, at high or low speed, and fully enjoy your day on-piste.

INFINITE TURN

The Motion Tail technology fuses Flexible polymer pads into the TI layer, increasing the flexibility of the tail by 5% for a more forgiving yet responsive all-day ski.

S/MAX XT

THE FINEST CHOICE FOR FUELING YOUR THRILL.

Designed for skiers eager to crush it no matter the conditions, this ski is built so you can be playful on one run, and arc high-speed turns on the next one. Click into this stable and powerful ski set, embrace the combination of progressive technologies and innovative design, and be sure you leave your mark on any slope.

TERRAIN ABSORPTION

The Crossover Tip is developed to absorb vibrations and provide unyielding ski-to-snow contact, helping you crush it on all terrain and in all snow conditions.

EDGE GRIP

The Edge Amplifier ski-plate construction transmits 100% of your energy to the edge, for unmatched edge grip performance.

POWER

The full ABS sidewall and two sheets of titanal are designed to offer maximum power to the edges, so you can carve your way through every turn no matter the conditions.

STANCE

HARNESS THE POWER OF THE STANCE LINEUP.

The marquee ski of its line, the Stance 96 reconsiders what an all-mountain ski should be. With an all-new karuba/poplar construction and redesigned titanal frame, the 96 brings life and finesse to a classic metal chassis and full sandwich sidewalls. Enjoy a buttery-smooth ride, a powerful poise, and impressive edge hold no matter the conditions.

LIVELY & RESPONSIVE

A new karuba/poplar woodcore combined with a redesigned titanal frame and all-mountain rocker profile offer finesse and agility to this redesigned ride.

SUPERIOR EDGE HOLD

Full sandwich sidewalls plus Twinframe² construction create confidence-inspiring edge grip on and off piste.

ALL-MOUNTAIN VERSATILITY

We've redefined "all-mountain" with a new metal chassis, and a dynamic wood core to create a ski that will take you anywhere from groomers to glades - with confidence.

STANCE 96

L47227200+

Harness the power of the Stance lineup.

The marquee ski of its line, the Stance 96 reconsiders what an all-mountain ski should be. With an all-new karuba/poplar construction and redesigned titanal frame, the 96 brings life and finesse to a classic metal chassis and full sandwich sidewalls. Enjoy a graceful, smooth ride, a powerful poise, and impressive edge hold no matter the conditions.

STANCE W

NEW

STANCE W 94

L47234900+

New construction for a graceful, world-class, all-mountain ski.

The archetype by which all other Stance W skis are built, the 94W is best in its all-mountain class. A karuba/poplar core harnesses the energy of a redesigned titanal construction, creating effortless, yet stable turns in chop, glades, and on piste alike. A 94mm waist and full sandwich sidewalls offer confidence at speed and float over pow and crud.

QST ECHO

LIGHTER AND FASTER - THE TRAILBLAZER YOU'VE BEEN WAITING FOR IS HERE.

You asked, we answered: a touring-specific evolution of the iconic QST line. The QST Echo 106 combines a karuba/poplar core, superlight basalt fibers, and cork dampifier, for a lighter, livelier, go-anywhere backcountry ski. We kept the 106mm waist to rally in all conditions, while raising our commitment to sustainability with recycled materials..

ULTRALIGHT CORE & CONSTRUCTION

A featherlight karuba/poplar core combined with basalt fibers and cork dampifier in the tip and tail result in a lightweight ski that excels on the uphill.

CONFIDENCE-INSPIRING RIDE

Cork dampifier in the tip and tail combined basalt fibers throughout offer stability at speed, while the karuba/poplar core creates a lively and responsive ride.

A MOVE TOWARDS SUSTAINABILITY

The QST Echo 106 is made from 30% recycled topsheet materials and 100% recycled ABS in the double sidewalls, for a step towards a more eco-friendly ski.

MTN

MINIMAL EFFORT SKINNING UP, MAXIMUM POWER SKIING DOWN.

With an 86 mm underfoot, Salomon's MTN 86 CARBON has been engineered to balance the extreme lightness you need to easily skin up, with the unfailing stability and grip you expect when crushing it down the steepest, most hard-packed couloirs. It aims to minimize its environmental impact, so you can embrace your passion while being mindful of nature.

TOURING EFFICIENCY

Weighing only 1.1 kg, this ski's Full Karuba Woodcore, carbon-reinforced construction keeps the weight down, while ensuring stability and maneuverability are kept way up.

UNCOMPROMISED DESCENT

This ski's Alpine shape, high camber profile and carbon-infused construction will give you all the confidence you need to go as hard and steep as you want to go.

MORE SUSTAINABLE

Made to last with up to 40% sustainable materials, this ski is part of Salomon's untiring sustainability efforts aimed at minimizing our product's impact on the environment.

SALOMON ECO WAX BY VOLA L47107300

We know the right binding can make the difference between a good and a great day on the slopes, and we are really into making every day extraordinary.

ALPINE BINDINGS

ICON 30

L41774600+

Power and liveliness that will take the speed of your turns to new levels.

The new ICON binding is the winning choice of Salomon's World Cup racers. Engineered to handle even the most challenging turns, it features a redesigned toe piece that centralizes your power transmission. Channeling up to 30% more power underfoot, it simultaneously releases up to 15% of pressure from the tip and tail, giving you a livelier turn.

STRIVE

ULTRA-LOW PROFILE, LIMITLESS POTENTIAL.

The Strive 16 features an ultra low-profile toe piece which creates a low center of gravity. This enhances a skier's power, control, and response due to enhanced sensitivity. The binding lets the characteristics of the ski and slope excel, creating better day on skis.

POWER & STABILITY

A wide (72mm) AFD pad, gives skiers extra contact between boot and binding. This adds stability and increases power transfer from binding to ski.

RESPONSIVENESS & CONTROL

An unrivaled 47mm of elasticity builds confidence and security at speed. The low-profile toe piece creates a low center of gravity, providing an unmatched on-snow feel.

SKI & BINDING INTEGRATION

A low center of gravity creates unmatched ski-to-snow connectivity. Enhanced sensitivity equals quicker reaction, heightened control, and a better day on skis.

S/LAB SHIFT 13 MN

L41130400+

Uphill freedom plus downhill power equals zero compromise.

The new S/LAB SHIFT MNC 13 binding ushers in the next generation of freeride capability, blending the touring efficiency of a pin (low-tech) binding, with the performance of an alpine freeride binding. For skiers who like to push the boundaries of the mountain and their skiing, SHIFT to the first ever truly compromise-free binding.

NEW

MTN SUMMIT 12 BR

L47327200+

Flawlessly balanced weight, performance, and reliability for daily touring.

Perfectly balancing lightness, performance and reliability, Salomon's MTN Summit bindings elevate your alpine touring experience and make it to step in no matter the terrain. The heel ramp increases stability and edge grip, while keeping the breaks easy to remove, and the Flex-absorption system optimizes ski-flex for more fun with less effort.

The binding developed for junior skiers, suited to adult boots.

A perfect choice for growing feet, this lightweight junior binding is designed for young skiers who have already transitioned to adult boots or are keen on keeping the same ski set when they do. GripWalk-compatible, lightweight and easy to step in, this binding is the perfect long-term choice for young skiers.

S/PRO ALPHA

TOP-LEVEL PERFORMANCE DOESN'T CARE ABOUT THE SHAPE OF YOUR FEET.

Developed to offer outstanding performance and fit no matter the shape of your feet, Salomon's S/PRO ALPHA 130 ensures stronger heel lock without putting unnecessary pressure on your instep. Entirely customizable and with a fully dismantlable tongue, this 98 mm boot with race-like claw strap will instantly boost your comfort and performance levels.

PERSONALIZABLE FIT

The dismantlable, 2-part, fully customizable tongue and CustomFit 4D liner with thermoformable Talyn® make it easy to adapt the instep and fit to the uniqueness of your feet.

OUTSTANDING Foothold

The new 3D instep shell and 45° placement of the 2nd forefoot buckle ensure you can enjoy a stronger heel lock and more homogeneous foothold whatever your instep height.

FLAWLESS INSTEP

The thinner plastic and strategic positioning of the 2nd lower shell buckle put less pressure on the top of your foot and make it easier to step in and out of your boots.

S/PRO SUPRA

THE NEXT DIMENSION IN FIT.

Engineered to advance foothold and performance by challenging traditional boot constructions, Salomon's Supra BOA 120 ski boots outline a new standard of perfect fit. Our ExoWrap® Construction, combined with a weaved Alpine Boa buckling system, offers more harmonized foot-wrapping, so you can easily re-dial your fit and performance through the day.

**DIALED IN.
PRECISION FIT.**

MORE CONTACT, BETTER FIT

Strategically placed thinner-shell walls, Alpine Boa dial, cable and guides increase the number of tightening points on the forefoot, for a more precise fit.

PRECISE FOOT WRAPPING

The ExoWrap® construction, Alpine Boa system, and latex-foam liner with elastic belt allow for a more rounded shell deformation and more precise wrapping of your feet.

ACCURATE SKI-STEERING

The mix of a Custom Tongue and ExoWrap® construction delivers precise foothold so you can achieve effortless ski steering on any slope.

NEW

SHIFT PRO

CHARGE DOWN, SHIFT, CLIMB UP.

Designed for skiers who love to charge through unspoiled powder at high speeds, but are tempted by the occasional escapade to hike a new peak, Salomon's SHIFT PRO 130 AT combines the stability and power of a true alpine boot with the versatility of a touring boot. Inbounds or out of bounds, the shift has never been easier!

LEGENDARY FIT

S/PRO's 100 mm inclusive fit and CustomFit 4D liner with thermoformable TalyN combined with a softer Sensifit insert provide better instant fit and more comfort when touring.

PERFORMANCE PROVEN

The Coreframe insert delivers improved terrain feedback and power transmission for a unique downhill performance.

BACKCOUNTRY COMMODITY

At 1.69 kg, this boot makes it easy to hike up. The Surelock mechanism and liner's walk function increase cuff mobility, while the LT insert ensures direct power transmission.

MTN

TO THE SUMMIT AND BACK, THE ONLY LIMIT YOU'LL FACE IS THE ONE IN YOUR HEAD.

Salomon's S/LAB MTN SUMMIT boots strikes the perfect balance between the lightness needed to effortlessly go up, and the reliable performance required to ski down. The ultra-light Ultramid® Shell, 70 mm wide Dual Powerstrap and thin liner deliver the precise calf-wrapping and consistent tightness needed to conquer even the most extreme routes.

DOWNHILL PERFORMANCE

The Carbon spine creates a super-strong shell-to-cuff connection, so you experience the consistent, powerful flex needed to ski down the steepest terrain with confidence.

PRECISION

The micro-adjustable BOA® Fit System combined with a strategically placed ankle strap creates Salomon's innovative Touring Belt, for a customized fit and unbeatable heel-hold.

TOURING EFFICIENCY

Weighing exactly 1,050 kg and with a 75° range of motion that will help your foot effortlessly maintain its natural rolling motion, this boot makes hiking up as easy as it gets.

BINDING COMPATIBILITY

CHILDREN NORM

ADULT NORM

You forget they are there, yet you become well aware when they are not - the right poles are essential for thoroughly enjoying a day on the snow.

ALPINE POLES

S/RACE CARBON

L47022000

When victory is the final measure of performance

S/RACE CARBON provides all the lightweight and shock absorption of carbon, with added durability around the upper shaft so you can go full-gas in the course. Precision grip, light swing weight, and optimal stiffness, this pole is hungry for speed.

Shaft: Carbon ****
Shaft diameter: 14mm

Color Blue
Grip Racing rubber grip
Strap Racing strap

GLOSSARY BOOTS PICTOGRAMS

PICTO	DESCRIPTION
<p>MY CU STOM FIT</p> 	<p>An instantly-fitting pre-shaped liner featuring cushier foams and easy-to-adapt outside placement of the Talyn® fabric with an elastic toe that box gives more forefoot space.</p>
<p>EXOWRAP</p> 	<p>Unique shell and liner construction powered by a BOA® Fit System to wrap your feet with precision and deliver maximum foothold and performance.</p>
<p>3D INSTEP SHELL</p> 	<p>This Shell technology, with its thinner plastic and 45° positioning of the 2nd buckle ensures stronger heel lock and more consistent foothold without unnecessary instep pressure.</p>
<p>CUSTOM SHELL HD</p> 	<p>The Custom Shell HD process lets bootfitters personalize to the boot's lower shell in 10 minutes, while thin wall construction and new materials keep the foot closer to it.</p>
<p>POWER SPINE</p> 	<p>This metal plate links the cuff and the shell to provide strong back support, progressive rebound out of the turn, and powerful forward flex no matter the snow conditions.</p>
<p>TOURING BELT</p> 	<p>A plastic strip, fixed to the inside of the boot and linked to the BOA® Fit System's cable lace, enhances tightening and ensures perfect foothold for walking up and skiing down.</p>
<p>CUSTOM TONGUE</p> 	<p>Fully dismantlable and entirely customizable tongue that allows for a perfect adaptation of the instep height. You can add foams or remove materials where it's needed (+/-8mm).</p>
<p>CALF ADJUSTER</p> 	<p>The Calf Adjuster offers a higher and wider calf perimeter capacity, fitting all leg shapes easily and quickly.</p>
<p>AUTOSTRETCH</p>	<p>This anatomically designed liner improves comfort while ensuring a warmer fit. The elastic sides of the Autostretch construction allow for perfect adaptation.</p>
<p>FULL SERVICE</p> 	<p>The buckles, toothplate, strap and oversized pivot are screwable so dismantling the boot is easy and bootfitters can easily access all parts when working on customizing the fit.</p>
<p>GRIP WALK</p> 	<p>These boots are premounted with Gripwalk soles but compatible with alpine ones. It's really easy to switch between the two, providing a great deal of convenience.</p>
<p>GRIP WALK OPTION</p> 	<p>These boots are premounted with alpine soles but compatible with Gripwalk ones. It's really easy to switch between the two, providing a great deal of convenience.</p>
<p>BOA</p> 	<p>The BOA® Fit System delivers a micro-adjustable, precision fit engineered to perform in the toughest conditions.</p>

GLOSSARY SKIS PICTOGRAMS

PICTO	DESCRIPTION
	<p>The redesigned, SL-specific two-piece Edge Amplifier provides 30% more edge grip while maintaining the right amount of flex underfoot for increased reactivity, agility and grip.</p>
	<p>The redesigned GS-specific Edge Amplifier ski-plate construction transmits all your power to the edge for unmatched edge grip and stability at high-speeds.</p>
	<p>By using cork in the tip of the ski, which is three times more absorbing than Koroyd, a high level of vibration absorption and dampening is achieved without adding any weight.</p>
	<p>The tip construction has lateral TPU inserts which act as bumpers and better absorb shock, while a layer of carbon powered C/FX improves dampening properties.</p>
	<p>By fusing flexible polymer inserts into the TI layer, this innovative construction maintains the ski's stiffness but adds the liveliness needed for high speed through the turn.</p>
	<p>The Motion Tail technology fuses flexible polymer pads into the TI layer, increasing the flexibility of the tail by 5% for a more forgiving yet responsive all-day ski experience.</p>
	<p>A visible layer of Titanal underfoot, above the woodcore, extended by carbon inserts at the tip and tail maximize maneuverability without affecting performance</p>
	<p>A core made of full poplar woodcore encapsulated in a foam. When pressed into a full sandwich ski it results in the lightest full woodcore ski.</p>
	<p>Semi Sandwich Sidewalls guarantee stability and smooth ski-to-snow contact by providing maneuverability for easier engaging turn feeling.</p>
	<p>A high-density injected piece of ABS underfoot, combined with full length sidewalls, offers a strong underfoot platform which maximizes grip on hard snow.</p>
	<p>C/FX is a fiber layer consisting of Carbon and Flax woven together. It combines the strength, stability, and minimal weight of carbon with the increased level of dampening of the flax.</p>
	<p>Double layer of titanal, one on either side of the core, improves hard snow performance. It increases precision, offers a good edge grip and improves responsiveness.</p>
	<p>A single layer of titanal reinforcement, on top of the core, offers great edge grip, efficient energy transfer and liveliness.</p>

GLOSSARY SKIS PICTOGRAMS

PICTO	DESCRIPTION
<p>KARUBA POPLAR</p> 	<p>This woodcore is a mix between poplar and karuba, offering a specific construction. Karuba offers lightness and inertia, while poplar ensures good ski-to-snow contact.</p>
<p>FULL KARUBA</p> 	<p>This woodcore is made with 100% karuba wood, making your skis extremely lightweight and maximizing your touring experience.</p>
<p>POPLAR</p> 	<p>This woodcore offers stability, liveliness and forgiveness while ensuring good ski-to-snow contact.</p>
<p>FULL POPLAR</p> 	<p>This woodcore construction full of poplar wood maximizes liveliness, stability and ski-to-snow contact while filtering vibrations.</p>
<p>ABS SIDEWALLS  100% RECYCLED</p>	<p>A newly patented Salomon process to recycle our factory's ABS waste and build new 360° ABS sidewalls.</p>
